A mentor is
someone who
sees more
talent and ability
within you, than
you see in
yourself, and
helps bring it out
of you.

– Bob Proctor

Attendees who are new to project management will receive practical advice on launching and progressing their project management careers.

Attendees who are more experienced project managers will receive valuable insight on how they can coach and mentor other project managers.

4-DAY PMP/CAPM EXAM PREP

Velociteach's 4-Day PMP Exam Prep Course - 6th Edition Plus Agile is comprehensive, accelerated, and focused on a single goal: Equip students with the knowledge and techniques they need to pass the Project Management Professional (PMP) certification exam.

In our 4-Day class you'll learn Velociteach's proprietary "can't miss" strategies for answering difficult exam questions, unlock the secret to learning the massive amount of content found in the PMBOK® Guide 6th edition, and take loads of quizzes that look and feel like the actual PMP Exam. We'll help you think the way PMI thinks, giving you the right frame of reference needed to approach the exam with PMI's mindset. Covering key Agile concepts and terms, this course is aligned to the new PMP Exam Content Outline and prepares students for the PMP Exam released January 2, 2021.

When you take Velociteach's live PMP Exam Prep Course you get more than just an instructor-led class. We give you a comprehensive, accelerated learning program that includes live instruction, eLearning, step-by-step guidance, and all the study tools you'll need to pass the PMP exam. Among the resources provided is the bestselling textbook *The PMP Exam: How to Pass on Your First Try*, written by Velociteach CEO Andy Crowe.

This course is for anyone involved in leading and directing projects such as project managers, program managers, functional managers, consultants, project leaders and engineers. You do not need to have the title of "project manager" to become PMP certified, and the certification is not industry-specific.
