## PMI GLOBAL CONGRESS

Three members of the local PMI Mid-Missouri chapter traveled to the PMI Global Summit conference last December. In this session, they will share the highlights of the conference and how to decide if you want to attend next year's conference!

Grab your coffee and breakfast if you choose, and plan to join us online.

## NO-CODE AND LOW-CODE APPS

You can make an app for that! In this session, we will look at how you can quickly "code" an application using relatively simple services and tools. We will also discuss how you can use these tools to make solutions that can "fill in the gaps" in your existing information systems.

## PMIWDC FAIR LAKES LUNCHEON

As organizations realize the benefits of concentrating on improving their value streams, Project Professionals can grow into Value Delivery Managers. A crucial emerging skillset that leverages existing skills and experience of project professionals to focus on improving the flow of value delivered to customers.

“

Strive not to be  
a success, but  
rather to be of  
value.

– Albert Einstein

Does this sound familiar?

- It takes too long to get anything done
- We have so much work in progress; we are just firefighting
- No one has any visibility into what teams are doing
- Our teams are arranged in ways that create many dependencies

This session illuminates the principles, strategies, and practices in Disciplined Agile's Value Stream management guidance to improve the flow of value to customers in organizations.

The presentation will focus on how organizations can benefit from concentrating on their value streams. Project Professionals can continue their learning journey and develop into Value Delivery Managers that can benefit their organization and increase the value delivered to their customers.

Join this virtual event on February 7, 2023 from 12:00 PM to 1:00 PM!
